

## Datadobi – Junior Java Developer

### Junior Java Developer

A Datadobi Developer will work as a software engineer as part of the development team and will participate in the day-to-day development of our next products as well as maintenance tasks on our current products. You must be able to work efficiently and independently in an agile context.

#### Why Work for Us:

Datadobi, a global leader in Unstructured Data Management, is revolutionizing unstructured data management with its StorageMAP platform. Enterprises can make data-driven decisions that transform unstructured data from an expense and risk into a competitive advantage and revenue.

Founded in 2010, Datadobi is a privately held company headquartered in Leuven, Belgium, with subsidiaries in New York, Melbourne, Dusseldorf, and London.

Our agile, high-energy culture rewards top performance and the contributions of those passionate about our collective growth and success as we continue to build the world's most powerful, comprehensive, and real-world proven unstructured data management platform.

### The successful candidate's required skills and experience:

- Bachelor's or Master's degree in Computer Science;
- Real-life & hands-on experience with developing and maintaining quality in a large and challenging code base is a plus;
- A thorough understanding of common data structures and algorithms, including implementation and computational complexity;
- Experience with multi-threading, locking, parallelism and synchronization;
- Ability to work independently without supervision in an organized and disciplined way;
- Experience with one or more of the following is a plus:
  - o Basic Linux system administration
  - o Network programming (sockets) and debugging (packet capturing and analysis)
  - o File system data structures
  - o File system access protocols (NFS, SMB) and object protocols (S3)
  - o Vaadin

### What we offer:

Datadobi complements your challenging job with a competitive salary and benefits (DKV healthcare, meal vouchers, mobile phone, extra legal expenses, extra child benefits,...).
